Introductory course on Pharmaceutical Bioinformatics

I would like to inform that our spring 2017 introductory course on Pharmaceutical Bioinformatics (7.5 ECTS credits; start January 16, 2017) given by Uppsala University is now open for late application.

The course, which is free of charge for EU/EAA-citizens, is suited for researchers who are interested to learn how complex chemical and biomedical processes can be investigated even down to their finest chemical details using informatics, and how this can be used for the development of novel drugs.

To receive further information please visit www.pharmbio.org .

On request of many previous participants we now also offer two additional courses:

I. Applied Structural Pharmaceutical Bioinformatics (5 ECTS credits; start January 16, 2017)

II. Applied Pharmaceutical Bioinformatics (5 ECTS credits; start April 3, 2017)

More information is available at www.pharmbio.org/pages/other_courses .

To apply to the courses, please follow this link:

rmaceutical+bioinformatics&semesterPart=0

I would be pleased if you could forward this message among your students, as we have difficulties to reach out to these.

If you have any questions regarding the courses I am at your disposal.

All my best regards

Jarl Wikberg, MD, PhD
Professor of Pharmaceutical Biosciences
Head of Pharmaceutical Bioinformatics
Uppsala University
Sweden
