

I will offer a PhD-course in **Modeling in Biology** at EBC. The course will be held jointly for master and PhD students and you can find the official website here:

<http://www.ibg.uu.se/education/courses-programmes/all-courses/1BG383/>

The course is offered as an evening course (18:00-21:00) consisting of ten two-hour lectures and ten one-hour tutorials. Classes will take place on Tuesday nights **between January 16 and March 13, 2018** (9 times) and once on a Thursday night (in the first week).

Furthermore, each week a problem set has to be solved whose solutions will be discussed during the tutorial. Problems include tasks that can be solved with paper and pencil and tasks which can be solved with computer modeling in R.

As course book we will use "A Biologist's Guide to Mathematical Modeling in Ecology and Evolution" by Sarah P. Otto & Troy Day (<http://press.princeton.edu/titles/8458.html>).

Deadline for registration: November 30, 2017.

Please register by sending an Email to me and do not hesitate to get back to me in case you have any questions!

Best wishes,

Claus
