

Welcome to the Ångström visualization lab. Next week will include two workshops!

10 October - Excel. [Register here!](#)

A basic course for students on how to get going with Excel. The questions what? Why? And most importantly How?! Will be answered.

12 October – GIS-workshop. [Register here!](#)

This workshop will have a practical approach and give you a chance to try out how to work with ArcGIS through a set of exercises.
