

CRU invites you to the symposium

Reproductive toxicity and endocrine disruption – an update

Keynote by Professor Charles Tyler, Exeter University, UK:

Using fish for assessing the environmental impacts of endocrine disrupting chemicals.

Other invited speakers (more to come):

- **Paul Jepson**, Institute of Zoology, Zoological Society of London, UK: "The killer whale apocalypse: PCB-driven reproductive toxicity in cetaceans"
- **Louise Ramhøj**, National Food Institute, Technical University of Denmark: "Developmental toxicity of perfluorinated compounds in rats - with focus on endocrine disruption and mixture effects"
- **Anna Mattsson**, Uppsala university: "Bisphenol AF and a metabolite of bisphenol A disrupt reproductive organ development in the chicken embryo"
- **Anna Roos**, Swedish Museum of Natural History: "Transfer of contaminants from mother to cubs in otters from Sweden"
- **Matts Olovsson**, Uppsala university: "In vitro studies of effects of endocrine disrupting chemicals on human endometrial receptivity and embryo implantation"
- **Sofie Svanholm**, Uppsala University: "The frog as a model in reproductive toxicology"
- **Ylva Sjunnesson** and **Ida Hallgren**, Swedish University of Agricultural Sciences: "Effects of a perfluorinated compound (PFNA) in a bovine embryo development model"

October 18-19 (lunch to lunch) 2018
Evolutionary Biology Centre, Uppsala, Sweden

Deadline for registration is September 20. Send an e-mail with your name and affiliation to cru@slu.se. The cost is 400 SEK, including lunches, coffee, dinner on Wednesday and should be paid no later than September 20. Participants arrange their own travel and accommodation. For information on hotels: www.destinationuppsala.se/en/

Organizing committée:

Cecilia Berg, Dept of Environmental Toxicology, Uppsala University
Sara Persson, Swedish Museum of Natural History
Ylva Sjunnesson, Dept of Clinical Sciences, Swedish University of Agricultural Sciences (SLU)
Malin Hagberg, Centre for Reproductive Biology in Uppsala

If you have questions please contact: Cecilia.Berg@ebc.uu.se
