

UPPSALA  
UNIVERSITET

Dear all,

I offer a PhD-course in **Modeling in Biology** to be held at EBC. The course is held jointly for master and PhD students and you can find the official website here:

<http://www.ibg.uu.se/education/courses-programmes/all-courses/1BG383/>

This is an evening course (17:00-20:00) consisting of ten two-hour lectures and ten one-hour tutorials. Classes will take place on Tuesday nights **between January 22 and March 19, 2019** (nine times) and once on a Thursday night (in the first week).

Furthermore, each week a problem set has to be solved whose solutions have to be handed in. These will then be discussed during the tutorial. Most problems have to be solved with paper and pencil but some involve computer modeling in R.

As course book we will use "A Biologist's Guide to Mathematical Modeling in Ecology and Evolution" by Sarah P. Otto & Troy Day

(<http://press.princeton.edu/titles/8458.html>).

**Deadline for registration:** November 30, 2018.

Please register by sending an Email to me and do not hesitate to get back to me in case you have any questions!

Best wishes,

Claus
