

Max Planck Institute
for Evolutionary Anthropology

The Tai Chimpanzee Project is seeking researchers at the PhD or post-doc level to conduct research on:

1. Inter-community differences and relationships in wild chimpanzees
2. Chimpanzee communication
3. Comparative cognition in sympatric wild chimpanzees and mangabeys

Find the adverts on:

<https://www.eva.mpg.de/primat/staff/wittig/positions.html>

In addition the Tai Chimpanzee Project offers positions as research assistants:

1. Collect behavioural data on the habituated chimpanzee communities
2. Continue habituation of a new community
