

MINI-SYMPOSIUM ENVIRONMENTAL TOXICOLOGY

Wednesday May 16
Lindahlsalen

Program

10:00 – 10:30 Dr. Hitesh V. Motwani, Stockholm University

Title: *Tracing contaminant-induced molecular modifications in relation to organismal responses*

10:30 – 11:00 Dr. Johan Lundqvist, SLU, Uppsala

Title: *Effect-directed analysis – using 21st century toxicology to study toxicity of chemicals and identifying novel environmental pollutants*

11:00 – 11:30

Coffee break

11:30 – 12:00 Dr. Pauliina Damdimopoulou, Karolinska institute, Stockholm

Title: *Chemicals and female fertility: from basic biology to exposure assessment and experimental models*

12:00 – 12:30 Dr. Lars Behrendt (ETH), Zürich

Title: *Toxi-complexity: novel approaches for environmental toxicology*

Welcome
